Intermediate Status Report

CSSE 376

Thomas Morris, David Savrda, Alexander White

4-11-2013

1

User must be able to add or remove a card from a deck. User must be able to display the cards in a deck. User must be able to select deck rules. If the user has chosen deck rules all additions that violate those rules must be rejected.

2

Test	expected result
User creates a new deck with no rules	A new deck is created
User add a card	Card added to deck
User removes a card	Card removed from deck
User creates a new deck with specific rule	New deck created
User adds valid card	Card is added to deck
User adds invalid card	Card is not added to deck
User request deck information	Deck is printed out

3

Code coverage at approximately 60 to 70 percent . Need to consult Instructor to discuss further.
